great presentation
very inspiring
I found Dausen very inspiring. He did a great job speaking and sharing his experiences. He was hilarious! I could have listened to him alot longer. His family must be proud!
Very motivational. I think the lesson I took from Dausen is that we all need to focus on our strengths rather than our weaknesses.
Would be an excellent speaker for students as well.
Wow - he was GREAT!
Really enjoyed this session!
enjoyed him
I think he was awesome and believe he should go to schools. Why schools, so kids of all ages can understand what these children can do and capable of doing. He discussed things that people would not understand otherwise. I work with special needs kids and the children in the school
He was a good speaker and put good humor in also.
Dausen was a very inspirational individual. I appreciated his unique sense of humour and his strong sense of self-worth.
Dausen was awesome. So inspirational to see and hear someone who makes the most of what he has and uses it to inspire others of us that have so much more.
He was an excellent speaker and I enjoyed him.
Awesome!
I thought Dausen was a very brave and resourceful young man. I enjoyed his zest for life and would recommend him to other organization as a keynote speaker.He made me realize we all have our own limits that we need to work through and be motivated to do our best.
Dausen was awesome! Can't judge a book by its cover.
Fantastic young man!
interesting but not quite sure what we were supposed to get out of it...maybe motivation?
He was very good! It's good to have a younger perspective.
He was very good
An inspirational young man.
I assume Dausen received a lot of support from Educational Assistants during his school years...if this is so, it would have been nice if he had included an acknowledgement of this in his presentation.
Dausen was an amazing speaker and it would be awesome to see him come and speak to more of our staff and students!
